

PRODUCT DATA SHEET

K2 HIDRON PRO

WET WAX

K2 HIDRON PRO wax for drying, shining, and protecting the car paint. Applied to wet bodywork, it breaks up the water sheet and accelerates drying. The product revives colour, restores shine and makes the paint water-repellent, protecting the paintwork from water and weather conditions. This product features a pleasant almond scent. NOTE: We recommend applying the wax to cool paintwork in a shaded area.

Directions:

On wet paint: spray the surface, then rinse with water. Dry with a microfibre.

On dry paint: Spray and polish with a microfibre cloth until dry.
